Pre-approved seminars for LB144 Ex 1 Fall 2014 due November 14th by 5pm (assigned first week of Lab). If you find an interesting seminar NOT found on this list, ask your lead lab instructor before attending! We will also post info about extremely relevant, interesting or additional individual seminars that we hear about.

General rule of thumb: If you don't understand the title, you likely won't understand the talk (and should pick a different one!).

**Animal Studies First Fridays Seminar Series**
All seminars will be from 12:00 pm to 1:00 pm in 457 Berkey Hall
http://www.animalstudies.msu.edu/brownbag.php

**Ecology, Evolutionary Biology, and Behavior Seminars**
Mainly Thurs at 3:30 in 115 Eppley
http://eebb.msu.edu/seminars.php
These seminars are usually at an appropriate level for the class.

**Entomology Seminars**
Mainly 3:30pm in Natural Science 244, dates vary
http://www.ent.msu.edu/events

**Selected Fisheries and Wildlife Seminars**
Mainly Wednesdays at 3:30pm in Natural Resources 38 – Online seminar list to be updated 9/15/2014
http://www.fw.msu.edu/ (then click on seminars button on the right-hand side) These seminars are usually at an appropriate level for the class, but be sure to check with your lead lab instructor before attending because some of these seminars are not about SCIENCE and cannot be used for this assignment.

**Food Science & Human Nutrition Seminar Series**
Dates vary, usually held in 206 G.M. Trout FSHN Building
http://fshn.msu.edu/ or
http://www.fshn.msu.edu/events
The link is active and events are posted on the right

**Crop and Soil Sciences**
A149 Plant and Soil Sciences, Seminar list will be posted 9/15/2014
http://www.psm.msu.edu/about_psm/seminars
Plant Biology Seminars  
Mondays 4:10pm, Room 101 Biochem Bldg  
http://www.plantbiology.msu.edu/departmental-information/monday-seminar-series

Public Health, Epidemiology, and Biostatistics Seminars  
4:00 p.m. in C102 East Fee Hall (Patenge Room) or E4 Fee Hall (Fee Hall basement)  
http://www.epi.msu.edu/seminars/default.html  
Some of these may assume a pretty high level of understanding in the subject matter.

Microbiology and Molecular Genetics Seminars  
Mainly Tuesdays at 4:10 in Biomedical and Physical Sciences 1415  
http://mmg.msu.edu/seminars-schedules.html  
Some of these may assume a pretty high level of understanding in the subject matter.

Physics & Astronomy Seminars  
The MSU Department of Physics & Astronomy and many of its sub-units and affiliated research groups host regular Seminars and Colloquia. This is an access point for schedule information.  
Time, day, and location vary - on this page are links to 7 different seminar series!  
http://www.pa.msu.edu/seminars/  
Some of these may assume a pretty high level of understanding in the subject matter.
