SW 841:
Generalist Social Work Practice II
Week 11: Study Questions
DUE: 03/22/05

§ Your name and the course number must appear on each page.
§ All pages must be stapled together.
§ Do not use the question sheet for your answers.
§ Your answers must be typed and single-spaced.
§ Answers for each question must be separated by a double-space.
§ Your answers must be brief and responsive to the question.
§ Where the question calls for a list, each item on the list must be on its own line.

Text: Reserve – Wolpe

1. Please define negative practice.

2. Please list the five syndrome categories for which behavior therapy is relevant?

3. Wolpe argued that the basis for neurotic fear was the same as that for normal fear. Please list and define the three types of neurotic fear.
