SW 841:
Generalist Social Work Practice II
Session 3: Study Questions
DUE: 01/22/08

§ Your name and the course number must appear on each page.
§ You must staple all pages together.
§ Do not use the question sheet for your answers.
§ Your answers must be typed and single-spaced.
§ You must separate answers for each question with a double space.
§ You must use at least 1-inch margins at top, bottom, and sides.
§ Your answers must be brief and responsive to the question.
§ Answers should be in your own words (accurate paraphrases). Do not use quotations.
§ Where the question calls for a list, each item on the list must be on its own line.
§ Format text and tables according to the Formatting Text in Microsoft Word guidelines in the Writing Resources section of the SW 841 Web site.
§ You must type tables.

Text: Hardcastle, Wenocur, & Powers

1. C. Wright Mills has described the power structure in the U.S. as consisting of three levels or tiers. List each of the levels and describe their membership.
   1.01. __________________________________________________________________________________
   1.02. __________________________________________________________________________________
   1.03. __________________________________________________________________________________

2. List the definitions for each of the following types of community study in two or three sentences. Your definition should clearly identify the system being studied (the subject of study), study process (what one does when carrying out this type of study) and the purpose of the study.
   2.01. Community Field Study:
   2.02. Community Power Structure Study:
   2.03. Community Analysis Study (Your definition must distinguish this type from a Community Field Study):
   2.04. Problems and Services Study: ______________________________________________________

Text: Lum

3. Green (1995) developed a help-seeking behavior model designed to improve cultural awareness. List the four major components of this model.
   3.01. ______________________________________________________
   3.02. ______________________________________________________
   3.03. ______________________________________________________
   3.04. ______________________________________________________
4. Lum discussed the use of professional self-disclosure to humanize the relationship between the worker and client.

Lum suggested three levels of professional self-disclosure.

*List* descriptions of what the worker discloses at each of these levels.

4.01. Level 1: ________________________________________________________________

4.02. Level 2: ________________________________________________________________

4.03. Level 3: ________________________________________________________________
