Every day at approximately the same time, fill out a copy of the Generalized Contentment Scale (GCS). You should begin on Tuesday, 09/17/02, and finish on Thursday, 09/26/02. Place your name and date on each form that you fill out.

• Score each form.
• Chart the scores on a graph. The X-axis should be days and the Y-axis should be scores.
• Hand in the chart, the ten filled out questionnaire forms, and your score calculations.

The chart should look something like this.

The questionnaire form will be handed out in class.
