Individual Portfolio Assignment

Worth 100 Points (10 for the vision statement, 40 for the first draft and 50 for the final submission with the final paper)

Due:
Draft one and vision statement due before noon on 24th of October. Upload the full resolution video to youtube or vimeo, add the URL to your vision statement paper and submit on Angel.

Follow the same process for the final submission due before 10PM on the 26th of November.

The objective of this assignment is for you to produce a reel that showcases your talents and could potentially help you get a job after graduation. When putting your reel together, use your new knowledge from discussions and other samples seen in class and your own research. Everything that you put in your reel must be from your own work and do not use any copyrighted media.

Your final reel should be between 2 and 3 minutes in length. You may use whichever software you prefer to edit your reel. The final file should be at the highest possible resolution, preferably 1080P.

Possible talents to showcase:

Directing
Editing
Camerawork
Audio Mixing
Visual Effects
Color Correction
Sound Design
Lighting
Compositing
Animation (2D and 3D)

If you would like to showcase multiple talents, isolate each category by a visual transition. Example: first minute for camerawork, second minute for directing and last minute for editing. However your reel should not showcase more than 3 different talents.

Your reel should be submitted with a written paper. That includes a list of the project works showcased, details on how you plan to use your reel, where do you plan on submitting your reel, and how do you hope job reviewers will react to it. Your paper should also include a URL to your reel.
