Department of Health and Human Services Office of Civil Rights Voluntary Resolution Agreement
Compliance Scorecard

Academic Year 2019-2020
As of: 10/5/19

SCOPE:
This compliance review was conducted to validate university compliance with requirements of the voluntary resolution agreement between the U.S. Department of Health and Human Services Office of Civil Rights (HHS OCR) and Michigan State University (the university).

The objectives of this review were:

• To determine if the agreed upon currently due obligations are substantially completed;
• To determine if the completed obligations comply with resolution agreement requirements;
• To determine if output of completed obligations are supported by appropriate documentation.

In order to accomplish our objectives, we:
• Categorized all obligations into actionable steps. The document contained a total of 60 actionable steps that were incorporated into our review.
• Identified individuals responsible for ensuring that obligations were being met.
• Interviewed responsible parties to determine the status of the obligation.
• Reviewed supporting documentation to validate completion of obligations in accordance with agreement requirements.

CONCLUSIONS:
Based on our review of the voluntary resolution agreement and actions taken towards the obligations within we confirmed that the obligations for the period 8/6/2019 - 10/5/2019 were met and supported by comprehensive and appropriate supporting documentation. Our review did not identify any material inconsistencies with resolution agreement requirements. An updated progress measurement of the obligations by category is included below:
