In addition, classes will be available in the Junior Beef Show for crossbred and other steers that are not eligible for registering in a specific breed. In the Beef Showcase, some of the breed shows will include classes for steers. Please refer to the schedule for a listing of those breeds. Any animal which is registered in more than one breed registry, may show in each of those recognized breed shows, however, an entry fee of $20.00 is required for each breed shown in.

2. **Grooming Regulations**: Use of false tail heads or adding of hair or hemp is prohibited. Coloring agents, except powders, may only be used on the legs and tail switch. 4. **Awards & premiums** will be issued to exhibitors.

5. **Ownership Deadlines**: Open beef show entries must be owned by the exhibitor by entry deadline. Junior entries must be solely owned by the exhibitor by May 1, 2002.

   - Livestock infected with a communicable disease may not be brought to the show. To meet the health standards required to show, animals must be free of illness including clinical signs of respiratory disease (watery eyes, nasal discharge, elevated temperature, excessive slobbering, etc.), active ringworm or warts, and identifiable external parasites.
Evidence of surgical, conformation or any other unethical alterations will result in the animal and exhibitor being disqualified from the competition.

Official interstate health certificates are required for out-of-state beef cattle and certificates must include test results that are required for exhibition in Michigan. For specific test requirements, contact the office of the State Veterinarian of Michigan at 517/373-1077.

All livestock are subject to inspection by a licensed, accredited veterinarian anytime during the show.

**TB TEST REQUIREMENTS FOR MICHIGAN JUNIOR BEEF SHOW AND BEEF SHOWCASE**

Bovine TB is bacterial disease of cattle that is of concern to all cattle producers in Michigan. All cattle participating in the 2002 Michigan Junior Beef Show and Beef Showcase must have an official USDA alphanumeric metal ear tag or an official breed registry tattoo that is unique to that individual and corresponds to an identification number on official breed registration papers. In addition, all cattle regardless of age, must meet one of the following requirements with respect to TB testing:

- Cattle attending the show must have originated from a herd which has received a negative whole herd test within 12 months if in a high risk area or 24 months if in a non high risk area.
- Cattle have received an individual negative bovine TB test within 60 days before movement to this show.
- Originate directly from an accredited bovine TB free herd.
- Originate directly from an accredited bovine TB free state.

Upon arrival at MSU Pavilion, all cattle must be accompanied by a valid TB test form (paper) that demonstrates that the entered cattle have met one of the above requirements. Any cattle failing to meet these requirements will not be allowed to remain on the MSU Pavilion premise.

**Procedure for exhibitors upon arrival to the MSU Pavilion:** All cattle and TB test papers will be inspected before any cattle are unloaded. The inspection will be done in the parking lot area directly to the west of the exhibition center. Exhibitors must have your TB test papers available at this time. The show management and official veterinarians will make every effort to conduct this procedure in a prompt fashion.
