OVERVIEW

For this assignment, you are responsible for bringing in an example of a web page or web site element that sucks and a web page or web site element that is good. Plan to show both examples and to explain why you feel the way you do about the examples (for approximately 3–5 minutes).

You will find it incredibly useful to draw upon ideas, theories, and approaches described in the readings as you choose and analyze sites for this assignment.

You can work individually, or you can work collaboratively with the other person or people scheduled on the same day you are. If you miss your presentation, you must reschedule immediately.

If you’re not sure where or how to get started, you might check out:
