Trace Command Examples

October 19, 2012

(1) **That-trace effect**
   a. Who do you think (that) Sue met \( t \)?
   b. Who do you think (*that) \( t \) met Sue?

(2) **That-trace and for-trace effects**
   a. * Who do you think \( [t_i \text{ that } [t_i \text{ bought the book}]] \).
   b. * Who would you prefer \( [t_i \text{ for } [t_i \text{ to buy the book}]] \).
