I. Administrative

A. Midterm Course Evaluations – review

B. General Questions?

II. Subsequent Developments – Ch. 3

A. Semantic Scope

1. Quantifier scope

2. Operator scope

3. Modal operators

4. Scope and ambiguity

B. Possible Worlds

1. Extensions sets, and characteristic functions

2. Intensions and individual concepts

3. Extensionality and intensionality

4. Propositions as sets of possible worlds

C. Intensionality & Extensionality

1. As semantic phenomena

2. Symptoms: scope interactions
3. Tests for these: substitution failure and existence independence

III. The Proper Treatment of Quantification – Ch. 4

A. Formal Approaches to Semantics

1. Grice and Montague in Abbott, but many others…

2. What are the virtues of formal approaches?

B. Individual Concepts

1. Functions from possible worlds to individuals

2. Abbott is fond of these as a way of modeling reference

C. Challenge the Formalist/Ordinary Language Divide
