

## 2017 Custom Machine and Work Rate Estimates

FIRM Team Fact Sheet Number 16-3

Available at <http://www.firm.msue.msu.edu>

Author : Dennis Stein, Senior District Farm Business Management Educator

Michigan State University Extension • November 2016

2017 Production season costs estimates								updated 11.09.16
Farm Labor Unskilled <sup>7</sup> = \$ per hour	\$13.50						1.99 per gallon of fuel	
Farm Labor skilled <sup>7</sup> = \$ per hour	\$16.40						2.19 per gallon lube & fuel cost	
Farm Labor- milking cows per hour	\$12.00							
<b>TRACTORS ONLY:</b>								
		max.	min.	Custom \$/Hour	Machine Cost \$/Hour	Est. Fuel Gal. / Hour	Est. Fuel Cost per Hour	
No driver,or fuel cost	MFWD - 260 hp.	\$92.30	\$57.20	\$71.67	\$106.51	11.44	\$25.00	
	MFWD - 200 hp.	\$140.00	\$45.00	\$52.52	\$73.29	7.04	\$15.38	
	MFWD - 130 hp.	\$100.00	\$40.00	\$35.74	\$47.48	5.72	\$12.50	
Est. Tractor Cost \$0.27/hp/hr.	2- WD - 75 hp.	\$90.00	\$30.00	\$22.70	\$24.49	3.3	\$7.21	
Est. Fuel use .044 gal. diesel/PTO hp / hour	2- WD - 40 hp.	\$65.00	\$20.00	\$13.82	\$9.03	1.76	\$3.85	
Auto Steer systems charge per acre	\$2.89							
<b>TILLAGE OPERATIONS:</b>								
	Custom \$/Acre <sup>1</sup>	max.	min.	Total Machine Cost/ Ac <sup>3</sup>	Machine Rate per Hour <sup>4</sup>	Acres/Hr. <sup>5</sup>	Est. Fuel Gal./Acre <sup>6</sup>	
Plowing: Moldboard (6 bottom)	\$19.20	\$35.00	\$10.00	\$24.06	\$100.33	4.17	1.32	
Chisel Plow (23 ft.)	\$15.45	\$26.00	\$7.00	\$10.35	\$134.86	13.03	0.64	
Chisel – front disk (16.3 ft.)	\$17.05	\$25.00	\$10.00	\$13.96	\$128.57	9.21	1.04	
Vertical tillage	\$15.31	\$25.00	\$8.00					
Disk-V.Ripper combo (22.5 ft)	\$23.15	\$35.00	\$14.00	\$22.23	\$257.65	11.59	1.61	
V- Ripper	\$17.31	\$35.00	\$10.00	\$15.72	\$97.15	6.18	1.10	
Subsoiler 30" - 10ft (12-15")	\$20.23	\$27.50	\$14.16					
Field Cultivator (23 ft.) + incorp.	\$13.61	\$20.00	\$8.50					
Field Cultivator (23 ft.)	\$12.77	\$25.00	\$7.00	\$7.09	\$92.03	12.98	0.34	
Harrow	\$9.16	\$13.00	\$5.00					
Soil Finisher	\$14.03	\$26.00	\$8.00					
Disk- Tandem 21 ft.	\$13.34	\$20.35	\$8.00	\$10.62	\$129.78	12.22	0.74	
Row Cultivate (12 rows)	\$11.90	\$20.00	\$8.00	\$7.73	\$119.43	15.45	0.46	
Row Cultivate-high residue (12rows)	\$12.32	\$16.00	\$7.00					
Stalk Shredder (20 ft.)	\$12.76	\$19.00	\$7.00	\$13.39	\$103.91	7.76	0.74	
Rotary Hoe (21 ft.)	\$9.13	\$15.00	\$5.00	\$0.00	\$0.00	25.96	0.18	
Land Rolling	\$7.45	\$12.00	\$5.00					
Highbay spraying	\$9.50							
Boom Sprayer-self-Prop.80ft.	\$7.49	\$18.49	\$4.00	\$3.96	\$174.72	44.12	0.07	
Boom Sprayer-pull type 90ft.	\$7.33	\$11.00	\$4.00	\$3.95	\$182.06	46.09	0.12	
<b>PLANTING:</b>								
	Custom \$/Acre <sup>1</sup>	max.	min.	Total Machine Cost/ Ac <sup>3</sup>	Machine Rate per Hour <sup>4</sup>	Acres/Hr. <sup>5</sup>	Est. Fuel Gal./Acre <sup>6</sup>	
Planter- 12 row -w/fert& insect 30" corn-soys	\$19.34	\$30.00	\$12.00	\$16.79	\$235.06	14.00	0.40

<b>Auto Steer System</b>	<b>\$1.50</b>						
<b>Machine storage sqr. Ft. per year</b>	<b>\$0.53</b>						
<b>Custom Farming- Corn</b>	<b>\$121.12</b>	\$190.50	\$70.00	(all machine operations for growing & harvest)			
<b>Custom Farming- Soybeans</b>	<b>\$107.02</b>	\$170.00	\$60.00	(all machine operations for growing & harvest)			
<b>Custom Farming- Sm Grains</b>	<b>\$92.25</b>	\$111.13	\$67.31	(all machine operations for growing & harvest)			

Fuel cost is calculated by adding fuel, oil and lube cost then adding 15% to this power fuel cost.

**\$2.185** \*\* base fuel & lube price used **\$ 1.90**

**1 Custom \$ per acre:** Represents the rate obtained from surveys of actual farm data surveys for 2016 from Universities listed below to do this type of machine work for another farm on a general basis. Higher or lower rates apply in each situation depending on crop conditions, soil conditions, size of fields and their locations. The rates listed included machine, power unit & operator where needed.

**2 Fuel \$ per acre:** adjusted to reflect fuel and lubrication (15% additional) from the base fuel price noted above.

As a thumb rule, it is estimated that each \$1.00 increase in fuel cost, will increase most machine operations by an additional 15%.

**3 Total Machine Cost/Acre:** Includes tractor, fuel cost, lubricants, repairs, maintenance, labor and overhead costs including depreciation. This could be considered as an estimate of the ownership cost and operation of this machine on a per acre basis. No profit or return to management, which would be necessary for on going enterprises were included in this number. Values are based on "Farm Machinery Economic Cost Estimates for 2016, University of Minnesota

**4 Machine Rate per Hour:** This number takes the Total Machine Cost per Acre and factors in the estimated Acres per Hour to give a value that represents an estimate of the hourly operational and ownership cost of machinery supported by ©University of Minnesota, Machinery Economic cost estimates for 2016. If the machine is run at full capacity (or engine clock hours) this per acre rate should be the custom work value generated.

**5 Acres/ Hour:** This is an estimate of the acres this machine should average on a per hour basis with normal down time.

**6 Gal./ Acre:** This is an estimated machine use of fuel consumed to do this activity and is based on a factor of 0.044 gallons of diesel fuel per PTO horsepower-hour on an average. Your individual machines fuel use may vary from this number.

**7 Labor cost:** charged for the Machine Cost column at rate of \$18.00 per hour unskilled tasks and \$25.00 per hour for skilled labor (planter, sprayer, harvester). Costs were developed as an adjusted estimate of common rates being used by farms in this area to cover their cost of operation.

\* This report is a summary of information extracted from various sources. Your actual cost may vary greatly from the numbers presented. It is recommended that you calculate your own cost and economic returns necessary for the operation of machinery and equipment on your individual farm. This document was compiled by: Dennis Stein, District Farm Business Management, Extension Educator Michigan State University Extension, 362 Green Street, Caro, Michigan 48723. Contact information: Email: [steind@msu.edu](mailto:steind@msu.edu) or web page: [http://msue.anr.msu.edu/topic/info/farm\\_management](http://msue.anr.msu.edu/topic/info/farm_management) . Factsheet revised November 2016

<b>HOW TO FIGURE YOUR MACHINE WORK RATES</b>		
If you are hiring or doing custom work, the following will help you determine the custom rate. Custom rates are based on tradition or usual rates set in the community, the bargaining positions of both parties (i.e., availability of machinery services and demand for machinery services in your local area) and cost of operating the machines on your farm.		
<b>Cost of ownership and operation can be determined as follows:</b>		
<b>Ownership cost per unit (e.g., acre, bushel, ton, hour) using the DIRT1 5:</b>		
1. Depreciation: $\frac{\text{original cost} - \text{salvage value}}{\text{years of use}}$		\$ _____
2. Interest: interest rat x AIV <sup>a</sup>		\$ _____
3. Repairs: estimated 2 to 5 % of original cost		\$ _____
4. Taxes: (0 in Michigan -i.e., no taxes on personal property used in agriculture)		\$ _____
5. Insurance: (estimated 0.5% x AIV for insurance premium)		\$ _____
6. Total ownership cost per year (add lines 1 thru 5)		\$ _____
A. Ownership cost per unit: total ownership cost ÷ estimated annual use (acre, hour, bushel, ton)	(A)	\$ _____
<b>Operating Cost per (acre, hour, bushel, ton)</b>		
1. Tractor: fuel (gallon fuel per unit x price/gallon) x 1.15 <sup>b</sup>		\$ _____
or		
2. Machine: gas or fuel gallons per unit		\$ _____
3. Labor: hours per unit x wage rate (if labor wage unit is per acre, bushel or ton multiply this wage by acres bushels or tons per hour to determine wage/hour)		\$ _____
B. Total operating cost per unit	(B)	\$ _____
C. Total ownership and <b>operating cost</b> per unit	(A+B)	\$ _____
D. Desired profit margin and / or risk premium	4.500%	%
E. Custom Rate (per acre, hour, bushel, ton) Line C x [1+(Line D/100)]		\$ _____
a Average investment value (AIV) = (cost basis + trade in value) ÷ 2.		
b The addition of 15 percent above fuel cost is for oil & lube. maintenance.		

Custom Machine rate calculator is available on line at Ohio State University: <http://aede.osu.edu/research/osu-farm-management/decision-tools>
